10 kg cartons NET

## Nutritional Information

Servings	1
Serving Weight	100g (raw)
Energy	302KJ
Protein	15.2 g
Fat, total	1.2 g
Saturated fatty acids, total	0.2 g
Carbohydrate	0.3 g
Sugars, total	0.3 g
Fiber, total dietary	0 g
Cholesterol	57 mg
Sodium	53 mg

## Documentation Proof

Country	Documents Required
United States (FAO81)	Health Certificate Export Certificate from NZA
Iceland (FAO81)	Certificate of Origin Inspection and Quarantine Certificate Catch Certificate

## Summary

A well stocked fishery in New Zealand, which continues to be well regulated.

## PRR Accepted Standard

Caught by trawl in coastal areas, mainly in the coastal areas of Northern New Zealand. *FAO 81*

## Sustainability

The hoki stocks in New Zealand are in excellent shape due to the sovereign management system in place. Quota reductions for about 7 years in the early 2000 were effective and the western stock, particularly, is deemed to be 'fully stocked'.
