Sustainability

The Black Tiger Shrimp are becoming increasingly sought after. Originally wild caught, they are now farmed substantially to meet demand. These farms are found mainly in Vietnam but also throughout the rest of South East Asia. It is now not a question of finding this product BUT ensuring that the product is supported by one of the many accreditations.

Summary

This product is readily available and in many forms Organic, extensive and intensive. It is important to ensure that accreditation is available such as ASC, BAP, Global Gap

PRR accepted standard

ASC, Global Gap and BAP
